

india and it

Incredible India! An apt description for a country which is one of the biggest democracies in the world. Where centuries co-exist and the modern blends seamlessly with the ancient. Where hospitality is a tradition, and development a passion. A beauty beyond description, beyond compare. An ancient civilization, as old as history itself. India is a glittering mosaic of people of different faiths and cultures, of varying climatic zones, of greenery and deserts, rivers and mountains, modernity and tradition.

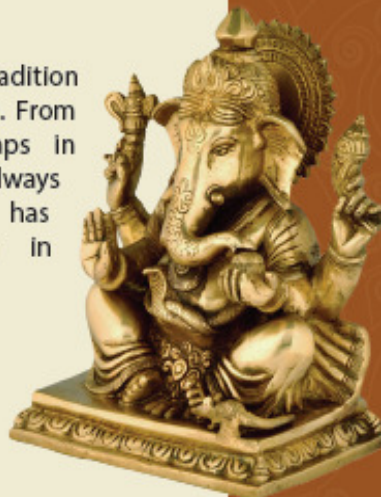

This ancient land fascinates the visitor with its size, culture, diversity, colors, scents, styles, customs, languages, architecture and geography. Home to the Indus Valley Civilization and a region of historic trade routes and vast empires, the Indian subcontinent was identified with its commercial and cultural wealth for much of its long history. With its history dating back to 3200 BC, India today is a pluralistic, multilingual, and multiethnic society. With 1500 dialects and 22 official languages, Indian culture is a rich confluence of various diversities. India is a republic consisting of 28 states and 7 union territories, with a parliamentary system of democracy. It is one of the fastest growing economies in the world.

India is a perfect combination of tradition merged with knowledge and learning. From discovering zero to mammoth leaps in Information Technology, India has always been ahead in education, which has ensured its spectacular progress in technology.

"Namaste Incredible India ! It's once in a lifetime experience. I shall use all the techniques I learnt at Aptech in my school to teach my students. Everyday was a surprise. It was such a great experience !"

*- Nazgul Kozhogulova,
Kyrgyzstan*

apttech limited

Aptech Limited, a Global Learning Solutions Company, is playing a key role in helping individuals, organizations and nations adapt to the changing requirements of a knowledge-driven world. Aptech commenced its education & training business in 1986 and has trained over 6.5 million students – globally.

Aptech is an ISO 9001:2000 organization and was the first IT training and education organization in Asia to receive the ISO 9001 quality certification for Education Support Services in 1993.

Aptech has presence in more than 40 emerging countries through its two main streams of businesses – Individual Training and Enterprise Business.

Under Individual Training, Aptech offers career and professional training through its brands - **Aptech Computer Education** (IT Training), **Arena Animation & MAAC** (Multimedia & Animation Training), **Aptech Hardware & Networking Academy** (Hardware & Networking Training), **Aptech Aviation & Hospitality Academy** (Aviation, Hospitality & Tourism Training) and **Aptech English Learning Academy** (English Language Training).

Its Enterprise Business includes **Aptech Learning Services** (Content Development), **Aptech Training Solutions** and **Aptech Assessment & Testing Solutions** (Training and Assessment Solutions for Corporates & Institutions).

Aptech's international operations encompass countries across Africa, Latin America, Eastern Europe, Central Asia, South East Asia, China, Middle East, APAC and SAARC.

"I benefited much from this course & it sure will reflect in my work. Thanks to Aptech & to the Government of India, who provided us with this exceptional opportunity. I am grateful to the faculty & all those who contributed to the success of this programme."

- Ibrahim Mohammed Abdullah Mahdi
Al-wakdy,
Yemen

itec/इटााप प्रोग्रामलले

The Indian Technical and Economic Cooperation (ITEC) programme was launched on 15th September, 1964 as a bilateral programme of assistance of the Government of India. It is the flagship programme of the Indian Government's technical cooperation effort, not only because of its wide geographical coverage but also for innovative forms of technical cooperation. ITEC is about cooperation and partnership for mutual benefit. It is focused on addressing the needs of developing countries.

The ITEC Programme, which is fully-funded by the Government of India, has evolved and grown over the years. Under ITEC and its corollary SCAAP (Special Commonwealth African Assistance Programme), 159 countries in Asia, East Europe (including former USSR), Central Asia, Africa, Latin America, the Caribbean as well as Pacific and Small Island countries are invited to share in the Indian developmental experience in various fields.

As a result of various activities under ITEC programme, there is now a visible and growing awareness among other countries about the competence of India as a provider of technical know-how and expertise as well as training opportunities, consultancy services and feasibility studies. Over the years, the technical and economic assistance programme of Ministry of External Affairs has generated immense goodwill and substantive cooperation among the developing countries.

"The decision to choose Aptech to improve my skills, proved to be the most correct & valuable decision taken in my life. The course is interesting and engaging. It also gave me an opportunity to meet people from different nationalities and learn about their culture. I loved the Indian environment and the people, which is so like my own country."

apteteh इ itec/इटाापः partnering for a better future

Aptech conducts its ITEC/SCAAP Programme in Delhi, the capital city of India. Delhi is a multicultural, multilingual international metropolis with excellent tourist spots & recreational facilities. Delhi has various resorts, restaurants & cafés serving a rich variety of world cuisine.

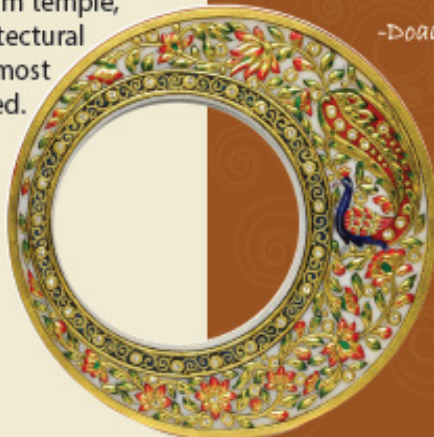

The city has a rich & colorful past going back to several centuries. Historic forts, temples, mosques & other monuments draw tourists from around the globe. The prominent landmarks in Old Delhi include the majestic Red Fort, the historical Chandni Chowk, besides Raj Ghat and Shanti Vana, the last two being memorials, constructed after India's Independence in 1947.

New Delhi, on the other hand, is a spacious, open modern city designed by Edwin Lutyens and Herbert Baker. It's notable attractions include the Rashtrapati Bhawan, the one time imperial residence of the British Viceroy; India Gate, a memorial raised in honour of the Indian soldiers martyred during the Afghan war; Qutab Minar, built by Qutub-Ud-Din Alibek of the slave Dynasty; Humayun's Tomb, a mausoleum which is a fine synthesis of Persian architecture and Indian traditions; and the Lotus-shaped Baha'i Temple. The spectacular Akshardham temple, the latest addition to Delhi's architectural wonders, is one of the biggest and most intricate places of worship ever constructed.

"My dream came true when I came to India - amazing experience, wonderful country and warm people. I learnt a lot from my course. I thank Aptech for this marvelous opportunity with a special thanks to my trainers and coordinators for taking such good care."
